

IMRRC COVID-19 UPDATE

We write you today with what is now a familiar message. Following the recommendations from state and local officials and in keeping with actions from our local schools, libraries and other non-profit institutions, we will be closed to the public as of 5 p.m. Tuesday, March 17th. We hope to reopen by April 13th.

The following events have been canceled or delayed:

- **April 2nd:** Moving Forward in Motorsports: Your Career in Auto Tech - canceled
- **April 4th:** Seventh Annual Model Car Show – canceled
- **March 24th:** “Trackside Stories” exhibition opening at the Arnot Art Museum - delayed

The research services program is temporarily suspended because our staff will not have access to our historical collections. Requests received during the closure will be added to a queue and answered in the order they were received when we reopen.

We thank collectors for thinking of us as they sort through their own archives, but discourage any donations of materials at this time, as we won't have the staff on-site to receive or process archival donations.

We greatly appreciate the continued support and understanding from our fellow race enthusiasts as we navigate this unprecedented situation. It's with an abundance of concern for our small, tight-knit community in Watkins Glen that we're taking every precaution.
